

Dear FCC,

I believe that NJ's no call list should be left in place. I dislike the fact that telemarketers target your family with phone calls during dinner and bed time. It interrupts my private time with my children, when we are discussing daily events and building family values. Things that I hold dear with-in my household. If I wished to obtain a companies services I will seek them out, I do not wish to receive unwanted phone calls. If you are or when you become a parent you will understand why I feel this way the first time someone calls as you just get your baby down for a nap or bedtime.

Kurt Andress
